## 2007 FJ CRUISER DUAL EXHAUST BY BORLA

Borla's high-performance Cat-Back Exhaust System is now available for the 2007 FJ Cruiser! This rear-exit system offers your customers aggressive motorsport styling with street commanding sound and maximum flow for more power. It has ultra smooth mandrel bends made from T-304 stainless steel and all-welded construction for durability. The angled polished tips add a high quality finishing touch to this very sharp, rugged truck.
